

**REPORT:****Visit of Ing. Kurt WIMMER, Principal of the district "Margareten",  
at the AACC, 24 April 2012**

On the 24<sup>th</sup> April 2012 Ing. Kurt WIMMER, Principal of Vienna's fifth district "Margareten", paid a visit to Dipl. Ing. Mouddar KHOUJA, Secretary General of the Austro-Arab Chamber of Commerce, at the AACC headquarters.

On his own initiative Ing. WIMMER asked for this meeting to get to know the AACC and its field of activities and also to present his own portfolio. In the course of their interesting discussion Ing. WIMMER emphasised the great advantages of the district "Margareten" by mentioning its attractive infrastructure. He pointed out that Vienna's fifth district was a very appealing location for the settlement of big enterprises and international companies. Moreover he explained that the already settled enterprises and companies were interested very much in the expansion of international cooperation and contacts.

The Austro-Arab Chamber of Commerce - in its function as an organisation for international networking - appreciated this initiative und offered Ing. WIMMER to cooperate with the district "Margareten" in order to link international companies and contribute to the process of promoting the district as an attractive location for international events, not only for enterprises and companies but also for the diplomatic corps and international organisations.

The first step towards this promising new cooperation will be taken on the 21<sup>st</sup> May 2012 when Dipl. Ing. KHOUJA, the AACC's Secretary General, will visit Ing. WIMMER at his premises. Within the framework of this visit there will also be a meeting with an international company.
