

Extraordinary Investment Opportunity

*Natural gas becomes real climate-friendly
A process developed, engineered and powered by
Royal Hydrogen LLC[®] - United Arab Emirates*

Input

4 kg Natural Gas

11 kWh Electricity

ZERO kg CO₂!

HighTech Reactor

Output

3 kg
Carbon Gold

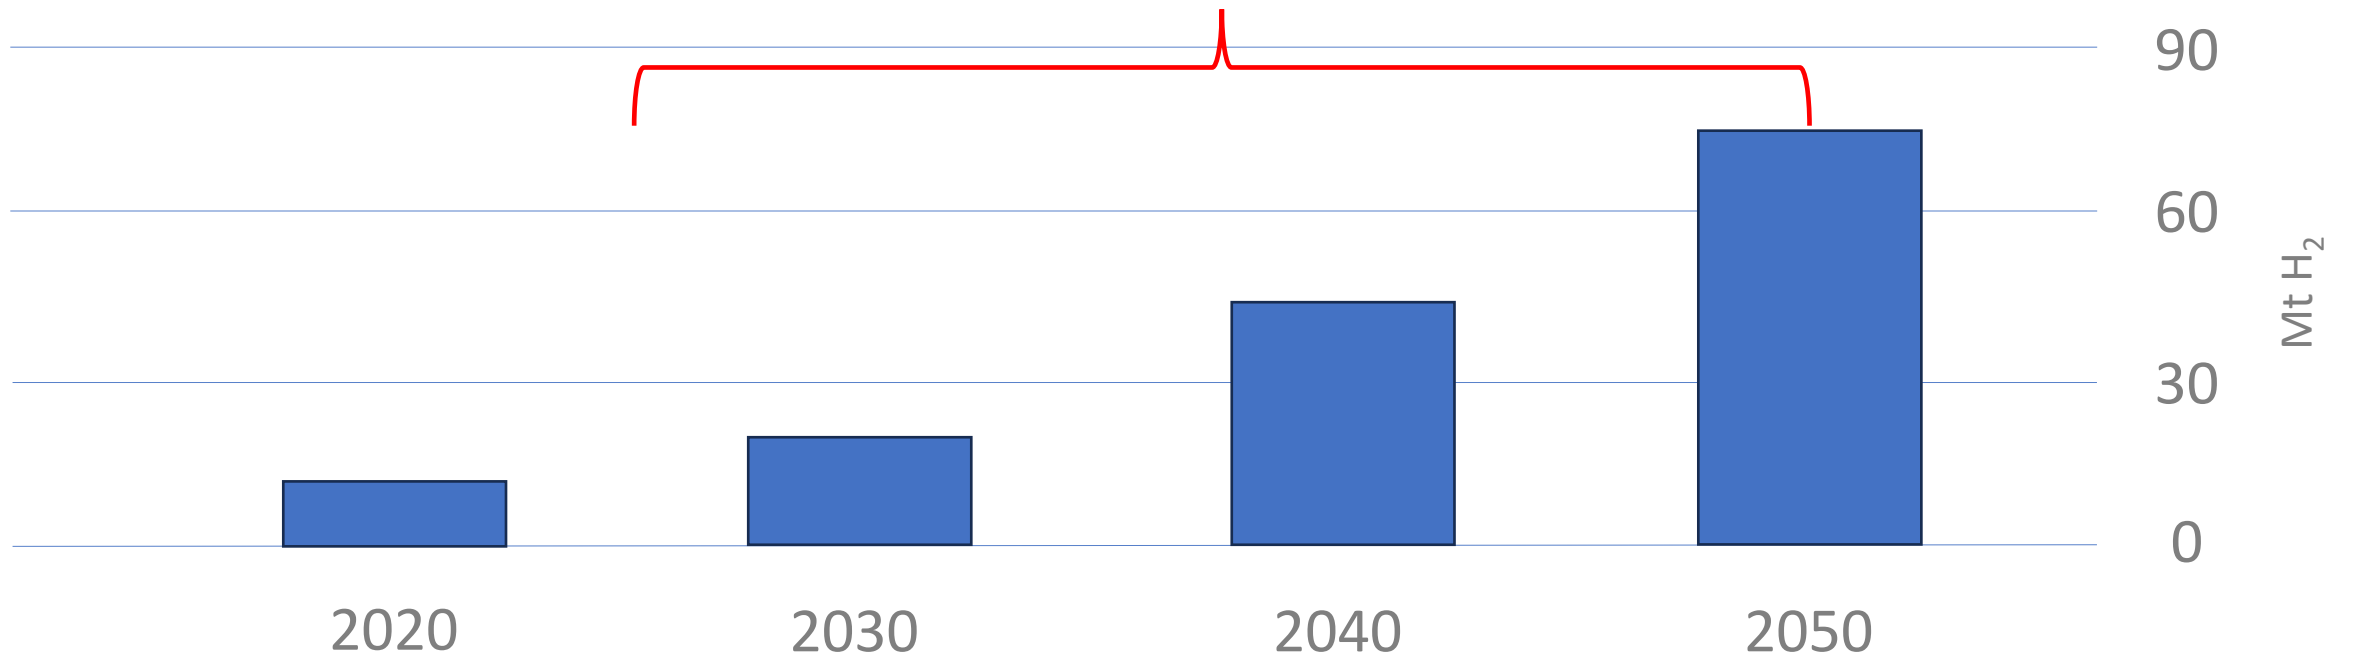

1 kg
Green Hydrogen

Waste heat

We are convinced that our technology is unbeatably cheaper than all other currently available technologies for environmentally friendly hydrogen production!

DEMAND FOR GREEN HYDROGEN IN THE EU

Sales Opportunities 2025 – 2050
1.000 Mt GREEN HYDROGEN TO EU

DEMAND FOR GREEN HYDROGEN WORLDWIDE

Sales Opportunities 2025 – 2050

6.000 Mt GREEN HYDROGEN WORLDWIDE

SHIPPING (2022)

300 Mt heavy fuel oil/y

120 Mt H₂/y

SALES PER YEAR

240.000.000.000 €/y

AVIATION (2022)

300 Mt jet fuel/y

115 Mt H₂/y

SALES PER YEAR

230.000.000.000 €/y

OPTION Carbon Gold - Special application

Boundary conditions

100,000 km² of "future commercial forest" in arid areas

40 t/ha Carbon Gold + 2.000 commercial trees/ha

RESULT

- **200 b New utility trees**
- **35 bm³ Highest quality precious wood harvest in 10 years!**
- **Carbon credits trading immediately possible!**
- **Many thousands of jobs in the low-wage sector will be created!**
- **Rural exodus stopped!**

“We stand for excellence and passion.”
