ABOUT US

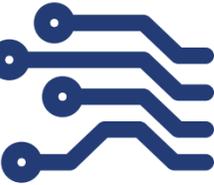

CryptIT is an Austrian company based in Vienna. We have specialized in the use of blockchain technologies in a business context, consulting, development and implementation of innovative software solutions and cyber security concepts.

Whether you are a startup or an established company, our 6-person team has many years of experience, a comprehensive understanding of the industry and in-depth specialist knowledge to find the best and most efficient solution for you and your company. We take a critical look at current and relevant technology trends and innovations.

Open and clear communication is very important to us when working together. We advise and accompany our customers with strategy, hands-on mentality and handshake quality: from the initial meeting to the conception and implementation. All of our services comply with the highest data protection standards and guidelines in Austria and the EU.

Our Team

Meet our impeccable team of experts in the IT world

Scharief Salem

CTO

Scharief is rarely the first on set, but once he's there, sparks fly. In the innovative application of blockchain and web technologies, he is without a doubt the visionary in the team. With more than 10 years of experience in the IT industry, he is able to explain complex processes of digital solutions in a compact and understandable way.

Mahmoud Salem

CEO

As managing director, Mahmoud always has an eye on the "big picture". As an experienced NLP coach, he is the communication professional in the team. He takes responsibility wherever his empathetic leadership skills are needed. As the commercial manager, he carries out work process analyzes and constantly tries to optimize the productivity and quality of all services.

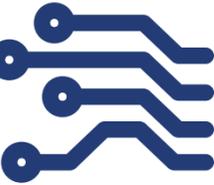

Robert Tatrai

COO

Robert is always in top form when it comes to looking after potential and existing customers. In marketing, he takes on the planning and implementation of promotion and communication strategies as well as the ongoing support of the media channels. As an organizational ace, he also has a particularly precise eye for data and its analysis.

Our Team

Meet our impeccable team of experts in the IT world

Sebastian Schrammel

Senior Developer

Sebastian is our all-rounder. He supports us in the development of software and blockchain solutions. He accompanies the complete implementation: from the idea to the end product. He also has in-depth knowledge of algorithms and data types and is proficient in several programming languages. As a lateral thinker, he is also happy to help the team with design issues.

Eli Grill

Software Developer

As a young university graduate, Eli enriches our team with lots of skills and a good sense of humor. He is proficient in various programming languages and is interested in blockchain technologies, which he applies as a basis for tailor-made software solutions for our customers. In addition, Eli always has the right joke to cheer him up.

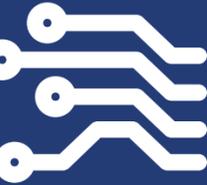

Berndt Rausch

Software Developer

As a creative mind, he has an eye for detail and never misses an opportunity to cheer us up with a laugh. Thanks to his studies, he has in-depth knowledge of databases and several programming languages that help him to assert himself in the world of blockchain technology. His strengths are the connection of economic aspects with the interfaces of blockchain technologies within our society.

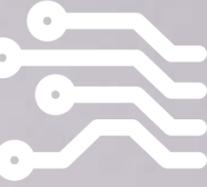

OUR SERVICES

-  **Software Development**
Custom software solutions, concept development, personalized cloud, automation software
-  **Blockchain Solutions**
Smart contracts, Technical Audits, Web3 implementation
-  **Cyber Security**
Vulnerability Tests, Phishing Campaigns, Authentication, confidentiality, Audits
-  **Smart Solutions**
Smart home setup and management, developing prototypes

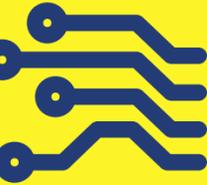

Specialize in emerging Technologies

- ▶ Custom Software Development
- ▶ Mobile Application development (iOS, Android)
- ▶ Web Application Development
- ▶ Artificial Intelligence and Machine Learning
- ▶ Big Data Analytics
- ▶ Education/ Teaching IT & Cyber security
- ▶ Cloud computing and SaaS Solutions
- ▶ Cyber Security
- ▶ Blockchain Technology
- ▶ Augmented Reality (AR)/ Virtual Reality (VR) Applications
- ▶ IoT (Internet of Things) Solutions

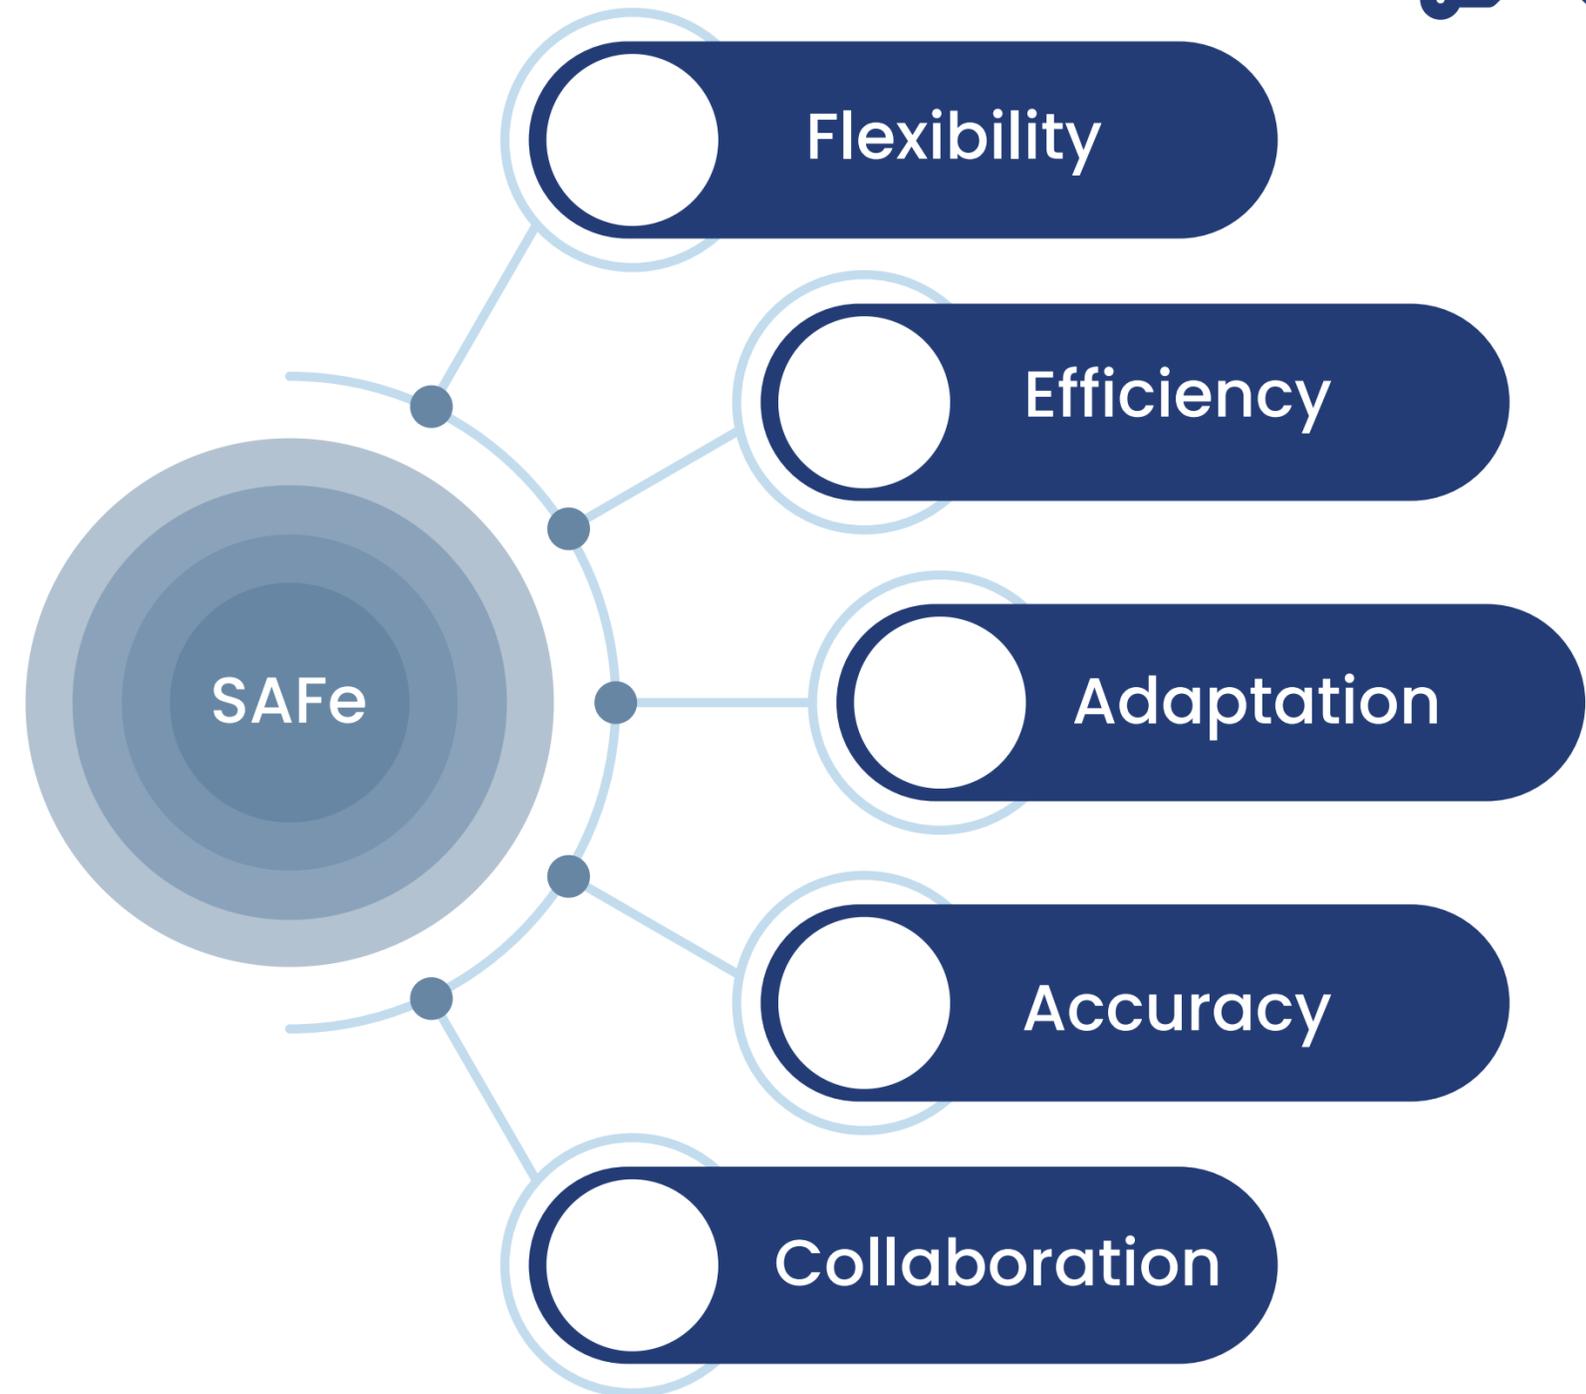

SKILLS AND TECHNOLOGIES

- ▶ Languages: Java, Python, JavaScript, C++, C#, Ruby, PHP, Swift, Kotlin
- ▶ Web: HTML5, CSS3, JavaScript, React, Angular, Vue.js, Node.js, Django, Ruby on Rails
- ▶ Mobile: Swift (iOS), Kotlin (Android), Flutter (Cross-platform)
- ▶ Databases: MySQL, PostgreSQL, MongoDB, Redis, Cassandra
- ▶ DevOps: Docker, Kubernetes, Jenkins, Git, CI/CD
- ▶ Cybersecurity: Encryption, Firewall Management, Intrusion Detection Systems, Vulnerability Assessment
- ▶ AI/ML: Tensorflow, PyTorch, Scikit-learn, Keras
- ▶ Big Data: Hadoop, Spark, Hive, Pig
- ▶ Cloud: AWS, Google Cloud, Microsoft Azure
- ▶ AR/VR: Unity, Unreal Engine
- ▶ IoT: Arduino, Raspberry Pi, MQTT
- ▶ Project Management: Agile, Scrum, Kanban, Lean

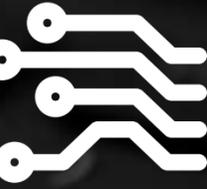

AGILE DEVELOPMENT

- ▶ CryptIT excels in project management due to its high flexibility, recognizing that every customer and project is unique. We employ various effective methodologies for project management, including Kanban, Scrum, Agile, Extreme Programming, and Lean.
- ▶ We utilize the concept of sprints in our project management approach. By setting specific goals and timelines for each sprint, we ensure a focused and efficient workflow. This process enables us to adapt and respond to changing requirements and priorities, and delivering high-quality results within defined timeframes.

YOUR BENEFITS OF WORKING WITH US

Flexible Payments

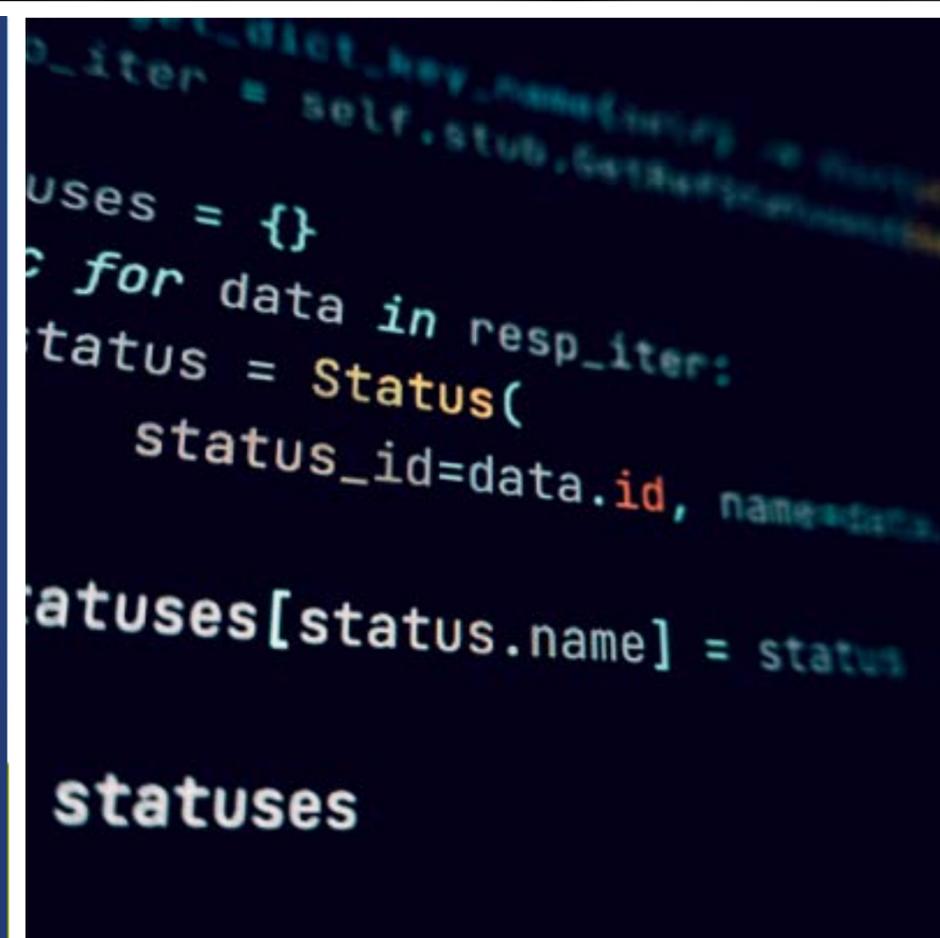

You always just pay for what you need!

Security

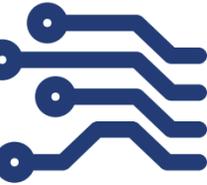

You are part of regular sprint meetings with developers!

Lower Fees

You are guaranteed cutting edge technology and state-of-the-art consultations!
