**1ST OFFICIAL
ENERGY CONFERENCE AND EXHIBITION**

**“Implementation of Innovative Efficiency
Technologies in Maintenance of Thermal/Natural
Gas Power Plants and Wind Farms”**

1st - 5th April 2019

**Hotel AMADRIA PARK IVAN
Šibenik, Republic of Croatia, EU**

About this Event

As the economy develops rapidly, each successful company has to adjust in order to maintain profitable. Crucial factors to increase efficiency in the power industry name innovative technology, sustainability and qualitative networking.

IDS proudly presents the prevalent developments and opportunities in high-end welding and engineering to come in the future of power plants. Respectable focus is set on evolving energy efficiency and environmental protection.

Carefully chosen experts of the power industry, from developers to decision making managers, will hold the main part of the convention. As a family owned company with over 45 years of experience, IDS invites you to our beautiful base in Šibenik, Croatia. You will experience the warm hospitality and culinary joy of this Dalmatian region by the Adrian Sea while creating business of tomorrow.

For Professionals, Experts and Innovators

Shared knowledge will benefit the cooperation of diverse experts, addressing engineers, investors and managers, who aim for beneficial investments and plant maintenance, upgrade human capabilities via education in welding and a significant decrease of air and water pollution.

Special focus will be set on wind park energy with presents of on- and off-shore pilots and human resources educated through welding academy. Heavy technologies from high-ranking power plants and intelligent machinery will complete the know-how this IDS executed convention exclusively offered to chosen guests. Technical experts of particular companies will exchange experiences on exhibition stands and will be available for your individual questions.

We are looking forward to meet you in beautiful Šibenik!
